

The background of the entire page is a close-up, slightly angled view of dark-stained wooden planks. The planks run diagonally from the top-left towards the bottom-right. The wood grain is clearly visible, showing natural patterns and variations in the dark brown color.

Brand Introduction

Who We Are

VEDREX is a premium brand offering high-performance extruded aluminum systems designed to meet the demands of modern architecture. Engineered for both beauty and endurance, our products serve a wide range of applications, from residential façades to institutional interiors.

What We Offer

We specialize in powder-coated and sublimated aluminum products for siding, cladding, soffits, ceilings, and versatile linear applications.

Whether used outdoors or inside, **VEDREX** systems deliver a refined, architectural finish with unmatched durability.

Backed by 4EDGE

All **VEDREX** materials are proudly produced and supplied by 4EDGE Production Corp., a company rooted in precision manufacturing and innovation in surface finishing technologies.

+ 03

Product Line Overview

Siding & Cladding Systems

- Durable, low-maintenance aluminum solutions for exterior façades and accent walls.

Soffit & Ceiling Systems

- Clean, ventilated, and aesthetically versatile systems for roof overhangs and interior ceilings.

Linear Aluminum Systems

- Sleek, customizable profiles ideal for decorative and small structural applications both indoors and outdoors.

Finishes & Colors

- Architectural-grade powder coatings and sublimated woodgrain finishes designed for long-term performance.

System Accessories

- Matching trims, corner caps, fasteners, and other components for seamless installation.

+ 04

Siding & Cladding Systems

VEDREX aluminum siding and cladding systems combine architectural elegance with rugged practicality. These systems are engineered to provide long-term value and style to any project type, from single-family homes to large-scale commercial façades.

Key Features

- Non-combustible and corrosion-resistant extruded aluminum
- Minimal maintenance with exceptional weather resistance
- in a range of modern solid tones and realistic woodgrains
- Lightweight and easy to install

Applications

- Residential & multi-unit housing
- Commercial & institutional exteriors or interiors
- Accent walls & feature façades

Profile and Installation Options

- Horizontal, vertical & diagonal configurations
- V-Groove, Filled-Gap, and batten profiles

Installation & Compatibility

- Clip-fastened and direct-mount options
- Integrates seamlessly with **VEDREX** soffits and trims

+ 05

Profile Specifications

6" V-Groove

- Aluminum Alloy 6063-T6
- 0.607 lb/ft
- max length 19'

4" V-Groove

- Aluminum Alloy 6063-T6
- 0.405 lb/ft
- max length 19'

+ 06

Soffit & Ceiling System

Bring precision and clean lines to overhead spaces with **VEDREX** aluminum soffit and ceiling systems. Suitable for both exterior and interior applications, these systems offer a ventilated, seamless solution with a contemporary finish.

Key Features

- Lightweight and rigid aluminum construction
- Ventilation options for roof systems
- Concealed fastening
- Fade- and moisture-resistant finishes

Applications

- Roof overhangs & eaves
- Commercial building canopies
- Interior ceilings in lobbies and corridors

Profile Options

- Flat, perforated, and custom linear profiles
- Linear strips and concealed rail systems

Compatibility

- Designed to pair with **VEDREX** cladding and linear systems

08

Linear & Privacy System

Precision-engineered and versatile, **VEDREX** linear systems are designed for both exterior and interior applications. These systems bring a modern, clean aesthetic to a wide range of architectural contexts.

Key Features

- Multiple profile sizes and shapes
- Seamless integration with other **VEDREX** systems
- Simple and efficient installation
- Structural and decorative use

Applications

- Decorative wall and ceiling
- Privacy partition & batten system
- Pergolas and open-air structures
- Retail and hospitality features

System Highlights

- Hollow and lightweight extrusions
- Custom lengths and finish options
- Customized clip and rail support systems

+ 10

System Integration & Accessories

Compatibility

- Systems are designed for modularity and unified aesthetics
- Trims match colour and texture options for a consistent finish

Accessories

- J-Starter strips
- Outside and inside corner trims
- End edge and termination trims
- Expansion trims
- Mounting clips and fasteners

+ 12

Profile Specifications

H-trim (2-piece item)

- Aluminum Alloy 6063-T6
- max length 12'
- Top cap: 0.220 lb/ft
- Baseplate: 0.202 lb/ft

F-trim (2-piece item)

- Aluminum Alloy 6063-T6
- max length 12'
- Top cap: 0.159 lb/ft
- Baseplate: 0.142 lb/ft

13

Profile Specifications

J-trim

- Aluminum Alloy 6063-T6
- 0.261 lb/ft
- max length 12'

Starter strip

- Aluminum Alloy 6063-T6
- 0.167 lb/ft
- max length 12'

Technical & Sustainability Information

Technical Performance and Certificates

- VEDREX profiles, as Prefinished Aluminum Siding, Soffit and Fascia, for all forms of building applications, comply with the National Building Code of Canada, CAN/CGSB93.1 and CAN/CGSB 93.2
- Non-combustible material as tested by ASTM E136 and CAN/ULC S114, and Standard Test Method for Surface Burning Characteristics of Building Materials and Flame Spread testing, CAN/ULC S102 and ASTM E84
- UV Resistance as tested by AAMA 2604/2605 and Qualicoat Class II and III compliant finishes
- Air-tightness (wind-load), Water-tightness and Hurricane Resistance as tested by ASTM E283,331 and 330
- Corrosion Resistance (no infiltration or blisters) as tested by 5000 hr of salt spray testing under DIN EN
- ISO 9227:1990 standard ISO 9001, IATF 16949, CE EN 15088, UKCA-CPR 781681

Sustainability

- 100% recyclable
 - Made from recyclable aluminum and fully recyclable
 - VOC and solvent-free coatings that do not emit volatile organic compounds
 - Long lifecycle = less environmental impact
 - Contributes to LEED credits and the green building program
-

Warranties & Maintenance Guide

Warranties

- Up to a 15-year (depending on finish type) limited finish warranty guarantees against colour retention, gloss retention, cracking and chalking
- Lifetime limited material (Aluminum) warranty guarantees against rusting, warping, corroding, and defects in aluminum siding and soffit material
- Extruded Aluminum products must be separated from direct contact with dissimilar metal materials to avoid bimetallic or galvanic corrosion

Note: For warranty details, please refer to the complete Warranty Documentation.

Cleaning & Maintenance Guide

- Wash with a soft brush, water using a garden hose and (if needed) a mild detergent with a pH of 6-7
- Avoid using high-pressure washers, stiff bristle brushes, and abrasive cleaners
- Use a touch-up pen (match finish) on cut edges if needed

Note: For detailed instructions, please refer to the Cleaning & Maintenance Guide.
